Re: **Maintenance Project Notification - Sealcoat Repair
Township of North Versailles, Allegheny County**

This letter serves as notification of a highway maintenance project that is located within the Township of North Versailles, Allegheny County. The Pennsylvania Department of Transportation plans to perform work on the following routes:

- SR 2026 First St/Kline Ave
- SR 2031 Foster Rd
- SR 2035 McKee Rd
- SR 2039 Washington Rd

Attached is a map showing the location of the project within the municipality. The general scope of work for this maintenance project consists of sealcoat repair (tar/chip) and line painting. Traffic will be maintained during all operations. Temporary on-street parking restrictions may be necessary and will be coordinated with the municipality in advance. Some overnight work may be required on high volume roadways.

Work will begin in mid-to-late May and will last throughout the summer as time and resources permit. Our sealcoat program is an essential maintenance activity used for extending the longevity of the roadway. Signs will be posted in advance of this operation.

Protecting, covering, or adjusting municipal owned facilities will be your responsibility. In addition, the restriping of stop bars and crosswalks will also need to be completed by your municipality once our sealcoat project has been completed. Please coordinate with the Assistant Highway Maintenance Manager, Tyler Tomasino, at (412) 429-4849.

If you have any additional questions regarding this matter, please contact me at (412) 781-3260.

Sealcoat Repair
